FAMILY  
&  
TRADITION

“TRADITION IS  
A LANTERN.  
George Bernhard Shaw  
THE FOOLISH HOLD  
ON TO IT, THE  
CLEVER ALLOW  
IT TO LEAD THE WAY.”

From one generation to the next we have and will pass the lantern on in our winery, so that everything stays in a constant state of flux, just as in nature. For us tradition means to do things a little better than before, to continuously strive for improvement, which was always the foundation for our success. This does not mean progress at all costs. But the old ways must not be preserved for their own sake, when the new is perhaps better. And what the best way is, only experience will show.

Today the family company is run with great success by the third and fourth generation. Holger and Burkhard Wasem oversee the winery and their wives Karin and Ilona are in charge of the gastronomy and the hotel. The children Julius and Philipp, both gained degrees in viticulture and economy, are beginning to bring their own ideas into the family winery. The third son, Gerhard, a business graduate for hotel and service management, is also part of the team. The daughters Marie Louise and Julia are at university and on the best track for their training and education.

WINE  
&  
REGION

For us, wine stands above all. Wine has always been a symbol and an integral part of socializing, hospitality and pleasure. Our aim is to combine all of these aspects: with a plentiful selection of wine and a diverse cuisine. With our rooms for conferences and parties and with our hotel. With our different events for wine- and food tastings, where people of all ages can discover, enjoy and celebrate the world of wine.

Wine has a strong influence on the region - and the region leaves a strong imprint on the wine. Our family has a long history in Ingelheim and this is the reason that we are not only aware of tradition but also curious about winemaking. Because of our history and curiosity you will find well established stars of the international grape varieties, like Cabernet Sauvignon and Merlot, but our main focus lies on the classic grape variations like the local types of pinot noir, Früh- and Spätburgunder. Our family run winery has a special relationship with the Frühburgunder grape: Our great-grandfather and founder of the winery Julius Wasem was honored with the Bundesverdienstkrenz, the German federal cross of merit, in 1964 due to his commitment to rescue the critically endangered Frühburgunder grape. Now we can enjoy first class wine, made from this noble grape, thanks to our great-grandfather.

And of course: Ingelheim has built up a reputation as the “redwine-city“ and celebrates this heritage with the popular redwine-festival, which takes place in town every year. But that does not mean that our white wines are not made with the same love and affection. Our wine portfolio stretches from young and fresh Silvaner, to powerful Pinot Gris and of course the versatile Riesling: fruity-dry wines, which you can enjoy in its early degree of maturity, and off dry and sweet wines with great storage and maturation potential.

# GASTRONOMY

“NOURISH  
YOUR BODY  
Teresa von Ávila  
WELL, TO MAKE  
IT A HOME  
YOUR SOUL  
WILL LOVE TO  
DWELL.”

Without a doubt: There is no better way to round off a nice meal than with the right glass of wine. Like no other beverage, wine can offer a huge diversity, with all of its different forms and characteristic. It is our goal to find the right glass of wine for all the dishes we serve at our restaurant - from a simple Brotzeit up to sophisticated menus, we will find the right glass of wine for you.

We deliberately keep our menu card brief, because we want to focus on regionality, quality, freshness and locally sourced produce. And of course we have a dish for any kind of taste: Vegetarian creations, classic German cuisine and hearty regional dishes. No matter if you choose one of our simple dishes or an intricate menu - we only use the best quality of goods and purchase predominantly from regional farmers, produced with love and expertise, so that we can serve it to you.

HOSPITALITY  
&  
GATHERING

Kloster Engenthal has been awarded multiple prizes for its architecture, concept and corporate philosophy. Among others, the awards include the Great Wine Capitals Award for Architecture, Parks and Gardens, the prize „Highlight of German wine culture“ of the German wine institute and „Business of the year“ in the district Mainz-Bingen.

Welcome to the Wasem Wine Hotel. Our family run hotel is situated close to the monastery, in a central but quiet location in the historic old town of Ingelheim and it offers the service and comfort of a modern hotel. Our ever present endeavor is to combine personal flair and hospitality, in the unique way only a family run business can.

Our rooms are available in the three categories, Standard, Comfort or Wasems Best with up to 10 square meters of living space. All rooms in the Wasem's Best category and two rooms in the Comfort category offer their own roof terrace and loggia. Furthermore, a small apartment is available and two of the double bedrooms are wheelchair accessible and adapted for the needs of the disabled. For families and small groups we offer the possibility to book two rooms, which are conjoined by a shared hallway. All of our guests are invited to use our outdoor sitting accommodations and - of course - to our healthy and delightful breakfast to start your day right.
